DO NOT enter anything into the boxes “tons and estimated tonnage fee” this will automatically fill.

### To Enter Crop:

Click on **Add Varietal**

Use the black drop down arrow to choose your variety (Only main names are shown, ie: for Pinot Grigio enter Pinot Gris. Cabernet Merlot, must be broken down by the individual varieties)

Enter your tons. You may choose metric by checking the box, but all invoices will be in standard tons. If entering under 1 ton (tonne) you MUST put a zero in front – **0.75**

The system will automatically enter an estimated juice/litres. Leave as this default. This is under construction. Once completed you will be able to adjust to your actual litres.
